

T.E.C.K

(Teaching Educationally Creative Kids) LTD

Mission Statement

“Knowledge is power and power is given to those who teach, care, motivate and inspire the true potential inside of all of us”.

Our Motto

“Encourage rather than dictate”

Itinerary

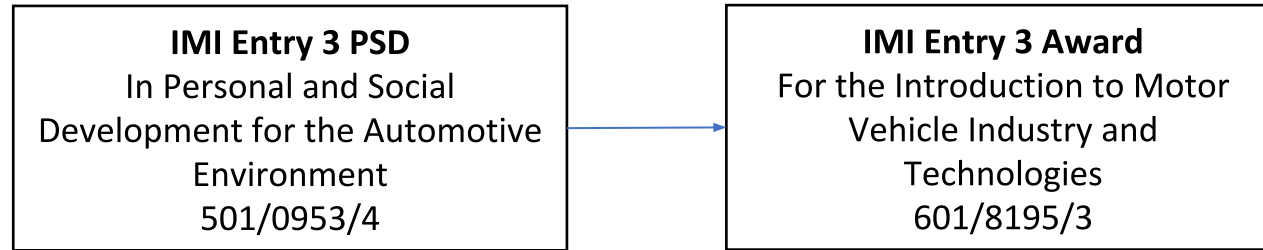

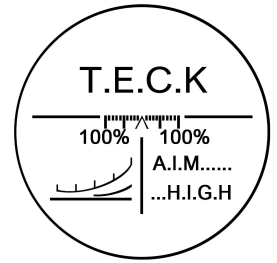

Qualifications

Motor Vehicle Workshop

Recreational Area

T.E.C.K offers a full range of Motor Vehicle courses for learners who attend a Special School, they are expected to work towards an IMI (Institute of the Motor Industry) qualification, these are bespoke programmes and are designed for each learner to achieve their full potential.

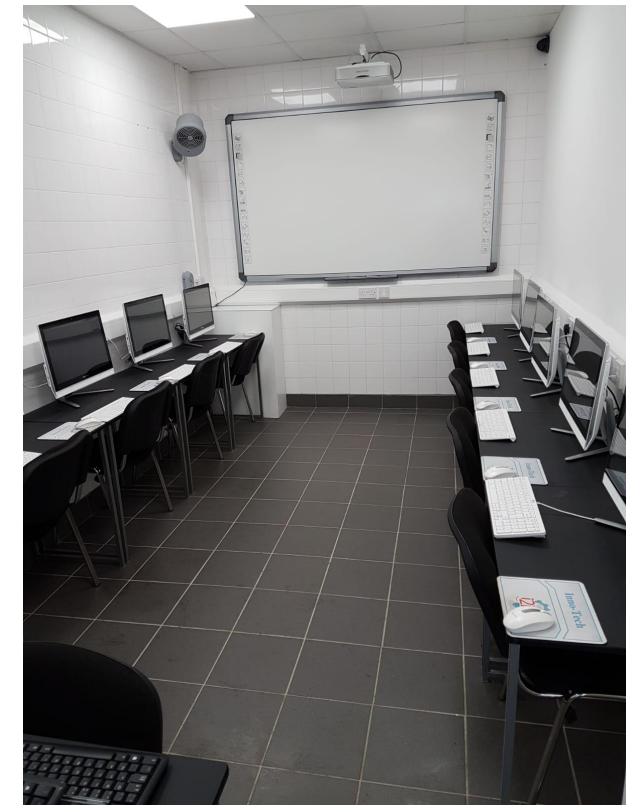

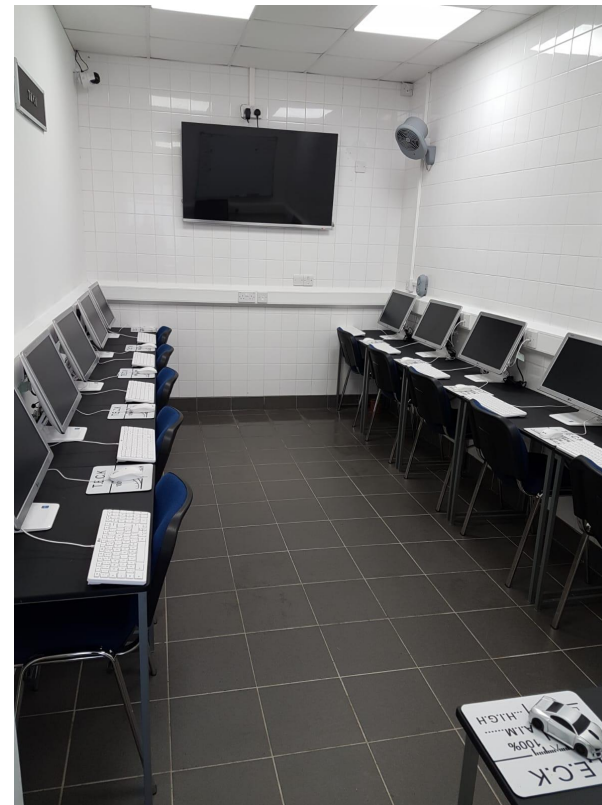

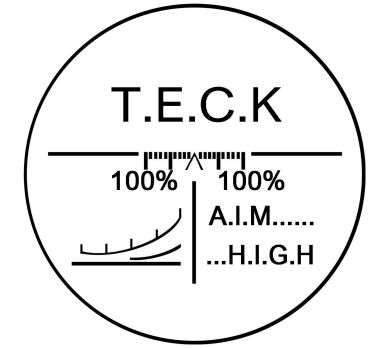

FLOW DIAGRAM OF IMI QUALIFICATIONS DELIVERED BY T.E.C.K

T.E.C.K 1 and T.E.C.K 2 Classrooms

There are two state of the art classrooms with 10 electronic computers in each classroom. These are running a Google docs program and will engage learners with 3D videos, assignments, job cards and motion pictures.

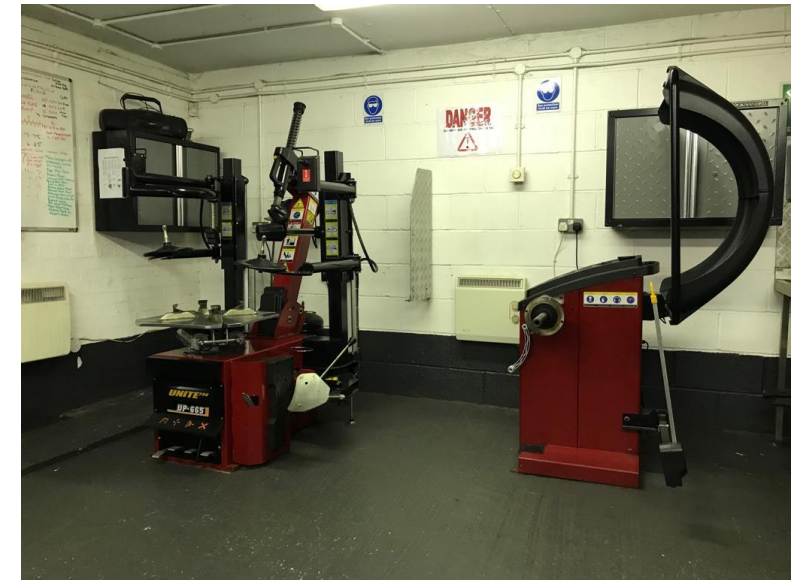

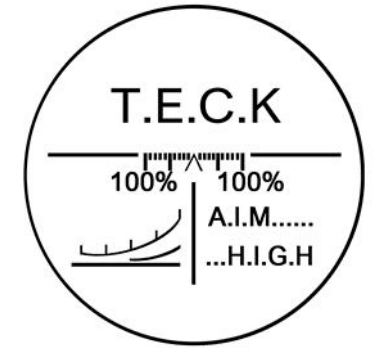

This will facilitate interaction through the Virtual Learning Environment (V.L.E) and compliments the IMI ePortfolio, which learners will be required to complete as part of their qualification.

Motor Vehicle Workshop 1

Within our workshop we have invested heavily in brand new state of the art tyre removal machine and wheel balancer along with our own electronic laser steering geometry equipment. We also have our own motor vehicles with a full suspension and brake system which is mounted on the wall. We have working pods for learners to complete practical tasks on various and different engine configurations. These engines are mounted on their individual engine stands with each toolbox equipped with all the necessary tools a learner will need to complete the practical tasks successfully.

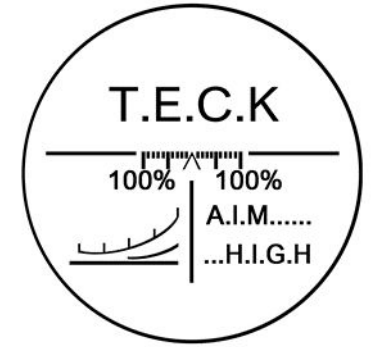

Overalls and boots are supplied by T.E.C.K as is the other PPE (Personal Protective Equipment) that the learners will need during their time at T.E.C.K.

Recreational area

The recreational area is equipped with providing lunch for the learners, a pool table, two playstations, a seating area and an outside area which is secure. The recreational area allows the reward scheme to take place, learners work hard to be included in mini tournaments, this includes Pool tournaments and computer competitions that are enriched and facilitated by the staff at T.E.C.K.

Our ethos incorporates respect and promotes positive social interaction which has proven to be an integral part in achieving outstanding results.
